Three New Vessels for ABC

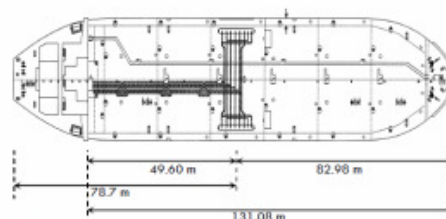

Three brand new tankers added to the fleet managed by ABCmaritime during the month of September 2011.

The three new vessels, to be named "Adfines Star", "Adfines Sky" and "Adfines Sun" are 19'250 DWT new-building chemical tankers and will be managed both commercially and technically by ABCmaritime/Bayside.

The three sister vessels are 161.68 meters long, 23 meters wide, with a loaded draft of 9 meters and are equipped with 12 cargo tanks and 2 slop tanks.

The tankers are built by the Yang fan Shipyard in the south of Shanghai, China

and the first one, the "Adfines Star", was delivered on the 12th of October.

The "Adfines Sky" and the "Adfines Sun" will shortly follow their sister and be delivered in the course of the months of November and December 2011.
