

Montana Shipping Ltd.

Business Introduction October 2011

DEAR LADIES, DEAR SIRs,

Please allow us to introduce Montana Shipping Ltd., Switzerland.

Montana Shipping Ltd. has been established in 2002 by two shipping experts, Captain Peter Woodtli and Chief Engineer Ernst Inauen. Both managers have lifetime shipping experience at sea and in office; as senior managers on board and since 1975 as managers and directors with ship management companies, such as Metrofin Ltd. and Enzian Ship Management AG, Zuerich, Switzerland.

Montana remained on limited activities since Capt. Peter Woodtli and Chief Eng. Ernst Inauen signed an agreement with Enzian Ship Management AG to set up an operation office in Zuerich and manage their expanding fleet until this summer when they handed over the well organized Enzian Ship Management AG to a new duly trained management. As from July Capt. Woodtli and from October Chief Eng. Inauen are now working exclusively for their own company, Montana Shipping Ltd.
